

Essential 6

spot-on

OF. AUT. SAGARPA 0771/12

Dermatological therapy to repair and restore the health of diseased skin due to chronic dermatoses such as seborrhoea, atopy, alopecia and various cutaneous pathologies, as well as to improve the quality and shine of the skin in healthy dogs and cats.

FORMULA

100% natural active ingredients Hemp and Nim oil (*Azadirachta indica*) rich in essential fatty acids, essential oils such as rosemary, lavender, melaleuca, marjoram, mint and soothing and purifying agents.

INDICATIONS

As a coadjuvant in dermatological pathologies in which it is required to repair and restore the health of the affected skin. (seborrhea, atopy, DAPP, alopecias, etc). To improve the quality and shine of the skin in healthy dogs and cats.

ACTIONS

- 1.- Restores and hydrates the hydrolipid layer.
- 2.-Repair the disorders caused by serous keratosis.
- 3.- It favors the balance of the cutaneous ecosystem and reinforces the defenses of the skin.
- 4.- Provides protection against free radicals.
- 5.- Help in the reduction of irritations (antirpuritic)
- 6.- Deodorizes respecting the natural smell of the animal.
- 7.- Collaborate in the reduction of hair loss and its sustained growth.

DOSAGE AND ROUTE OF ADMINISTRATION

Apply a pipette weekly, directly on the skin for an initial treatment for 2 consecutive months, continuing with a regular and continuous treatment of a pipette every two weeks in order to guarantee an optimal effect.
