

# MAXIGRO

REG. SAGARPA Q-2083-071

## FORMULA

Each tablet contains:  
Zeranol 12 mg  
Excipient cbp 1 tablet

## PRESENTATIONS

Box with 10 cartridges with 24 doses each

## INDICATIONS

To increase weight gain and improve feed conversion

## DESCRIPTION

Anabolic non-hormonal agent for bovine on the basis of zeranol. Improves feed conversion through the optimization of protein metabolism.

MAXIGRO® is a nonsteroidal natural anabolic implant; of fungal origin (fungus of corn *Gibberella zeae*), which stimulates growth by producing greater nitrogen retention in the organism, which contributes to the formation of more muscle, thus improving the quality of the carcass.

It is possible to obtain an increase of extra weight per animal of 7-16 kg. and improves the conversion of food by 10-12%. The response of an implant lasts between 90-120 days and can be implanted every 90 days, obtaining in each reimplantation similar benefits that are cumulative.

## INDICATED SPECIES

Bovine

## DOSE

Cattle: 3 tablets (36 mg per animal) every 90 days

The dose is standard.

It does not matter age, sex or live weight.

## ADMINISTRATION MODE

Apply subcutaneously at the base of the ear near the head

## WARNINGS

It should not be used in milk producing animals.

Withdrawal period: zero days.

Store in a cool, dry place.

Keep out of reach of children.
